

IMPORTANT NOTICE REGARDING UPCOMING RATE CHANGES

For over 50 years, VGS has maintained competitive and affordable rates for its 55,000+ customers. As we work to enhance our customer service and make investments in safety and Vermont’s clean energy future, we are committed to keeping those rates low for current and future customers. Thus, we want to let you know about proposed rate changes.

Purchased Gas Adjustment: Case No. 24-0634-TF

On February 27, 2024, VGS filed a request with the Vermont Public Utility Commission (“Commission”) for a decrease in the Natural Gas charge of 7.5%, equivalent to an overall firm rate decrease of 2.62%. The effective date of this change is dependent on the regulatory review process, but it is anticipated to take effect with bills rendered in May 2024. With this change, a typical residential customer will pay about \$1,550.80 a year for natural gas which is a decrease of about \$37.05/year or approximately \$3.09/month.

As we work toward maintaining our core values of safety, climate, customers, and culture, we are committed to keeping our rates low and stable for current and future customers. Pending PGA regulatory approval, the rate components will be adjusted as follows:
