Annual Household Income (AHI)

Income is defined as the total annual gross income of all family and non-family members 18+ years old living within the household. All sources of income must be counted from all persons in the household based on anticipated income expected within the next 12 months. Possible types of income include but are not limited to: wages, salary, tips, bonuses or commissions payments, public assistance, social security/SSI, child support, regular gifts, unemployment, income earned on assets (savings, IRA, etc.) and some types of financial aid.

To calculate income, take the monthly amount that you and the people in your household are paid before taxes and multiple by 12. Include all wages, including regular salaries and overtime. If you are self-employed, use the previous 12 months of pretax income.

Vermonters whose AHI falls at or below the following levels are eligible for increased incentives or 0% financing. Please circle the income amount you fall below based on your county and number of people in your household.

County	Income Level*	1 Person	2 People	3 People	4 People	5 People	6+ People
Chittenden & Franklin	80% AMI	\$66,600	\$76,100	\$85,600	\$95,100	\$102,750	\$110,350
Chittenden & Franklin	120% AMI	\$99,900	\$114,150	\$128,400	\$142,700	\$154,100	\$165,500
Addison	80% AMI	\$61,050	\$69,750	\$78,500	\$87,200	\$94,200	\$101,200
Addison	120% AMI	\$91,550	\$104,650	\$117,700	\$130,800	\$141,250	\$151,750

*AMI = area median income by county

New for 2024: VGS has moved to a point-of-purchase “instant rebate” for efficient natural gas equipment. Instead of having to complete a form to request a rebate after the equipment is installed, these amounts have already been applied to the price when your contractor purchases from a local distributor. Be certain to verify with your contractor to confirm the rebate has been applied to qualifying equipment. Visit www.vgsvt.com/efficiency for rebate amounts.
