

ARNGP PROJECT DIRECTIVE

Date: 8/31/2015

Subject: General Backfill Materials

Directive Number: 2015 – 007

In 2.1(B) – Materials of Section 312333 – Trenching, Pipe Laying, and Backfilling of the Technical Specifications, it states native materials containing no stones or clods larger than 3” in the longest dimension are acceptable for general backfill. This directive will serve as notice that native materials containing no stones or clods larger than 6” in the longest dimension are acceptable for general backfill.

The VGS Operations and Maintenance Manual in the Trenching and Backfilling Procedure allows for this change to the specification and now the two documents will be consistent.

Issued by (print): Kristy Oxholm (for Christopher LeForce)
